

Congressman John D. Dingell visits Nanocerox for Title III Program Update.

NANOCEROX CONTINUES TO DEVELOP NANO TECHNOLOGY TO MEET U.S. GOVERNMENT DEFENSE NEEDS.

ANN ARBOR, MI – JUNE, 2011

Nanocerox hosted Congressman John D. Dingell at their Corporate Headquarters, located in Ann Arbor, MI on Monday, June 27, 2011. Dingell met with employees of Nanocerox, an Ann Arbor-based small business. Nanocerox is a highly specialized firm that develops, refines and manufacturers nanopowders for use in industrial, military, medical and aerospace applications. The company is developing a product that would compete with overseas manufacturers.

Said Dingell, "I am pleased to support Nanocerox's efforts to develop products that create a domestic source of nanopowders which will ultimately be used by the U.S. Department of Defense. I always have and will continue to champion U.S. manufacturers looking to create products that will help keep jobs here at home."

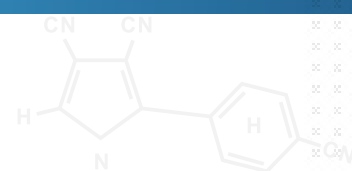

"Congressman John Dingell has long provided excellent leadership and direction in our continued involvement with U.S. Government programs," says Michael Kelly – CEO. "This has allowed Nanocerox to be involved in critical programs centered on securing domestic supply of key laser ceramic technology."

"The ability for U.S. Companies to supply critical materials technology for our laser, radiation scintillator and missile programs is an ever-growing challenge," says Annette Kennedy – Vice President of Sales. "Nanocerox has delivered key materials and ceramic Research & Development, plus scaled-up manufacturing to meet these important market needs."

This was Congressman John D. Dingell's fourth visit to Nanocerox.

ABOUT CONGRESSMAN JOHN D. DINGELL:

John D. Dingell represents Michigan's Fifteenth Congressional District, which includes parts of Wayne and Washtenaw County and all of Monroe County. Dingell serves exclusively as a senior member on the House Energy and Commerce Committee, which has jurisdiction over issues pertaining to commerce, energy, environment, health care, consumer product safety and telecommunications.

Over the last five decades, Dingell has represented Southeast Michigan in Congress and authored many renowned laws protecting our health and our environment, as well as the rights of workers and consumers. Dingell is known for his relentless pursuit of protecting Social Security and Medicare, improving health care and food safety, exposing government and private sector waste, fraud and abuse.

Congressman Dingell's hometown is in Dearborn, Michigan. He is married to Debbie Insley Dingell, and has two sons and two daughters – all of whom were raised in Michigan and attended the University of Michigan or Michigan State University – and three grandchildren.
